## PREFACE

Do you wish to provide services in private households or allow someone to provide services in the household-related areas and do this with social protection?

Whether as home help, gardening or child care, the Service Employment Cheque enables legal employment with automatic accident insurance and the possibility of voluntary health and pension insurance.

The Service Employment Cheque Act has been in force since 1.1.2006 to ease the provision of typical household services in private homes. Full electronic processing of the Service Employment Cheque (DLS-online) has been available since 2011.

**You can find out everything you need to know about the Service Employment Cheque in this brochure.**

## UNDERSTANDING THE SERVICE EMPLOYMENT CHEQUE (DLS)

SERVICE EMPLOYMENT CHEQUE ACT (DIENSTLEISTUNGSSCHECKGESETZ) (DLSG)

BGBL. I NR. 45/2005 i.d.F.d. BGBL. I NR. 114/2005 and BGBL. I NR. 30/2014

Since 1.1.2006 the Service Employment Cheque has served to pay for employment relationships between employees and natural persons for the provision of simple household services in private homes, provided the payment from the individual employer does not exceed the monthly minor employment threshold.

### WHICH SERVICES CAN BE PAID FOR WITH THE SERVICE EMPLOYMENT CHEQUE?

For example, the Service Employment Cheque can be used to pay for the following typical household services in private households (also in the context of supervised housing, provided that services are provided by third parties, and not by the people directly employed by the responsible body for supervision):

- **Supervision** of small children or those of school age
- **Shopping** for groceries, daily necessities, medication (but not their administration), heating fuel and the heating of rooms
- **Simple gardening** (for example sweeping leaves, mowing the lawn)

The Service Employment Cheque is intended for short, fixed-term employment. The employment relationship may always be concluded between the same two people with each period not exceeding one month. And repeated fixed-term employment does not represent grounds for continuous unlimited employment. At least one Service Employment Cheque must be issued for each day of employment.

### WHAT CANNOT BE PAID FOR WITH AN SERVICE EMPLOYMENT CHEQUE?

- Activities that require a (long) **period of training** (for example care of the aged and nursing care)
- „**Mixed activities**“ (working in a household as well as in a company)
- „**Three-way relationships**“ (for example, the activities in private households of persons employed by an association where no legal relationship exists between the household and the person employed, only between the private household and the association, for instance a family assistant).

## VALUE AND COST OF SERVICE EMPLOYMENT CHEQUES:

With the **electronically generated Service Employment Cheque** in newsagents (and via the Internet portal: DLS-online) the value can be **individually selected up to maximum of € 100.- per cheque**.

<b>Value for employee</b>	€ 5.-	€ 10.-
<b>Purchase price for employer</b> (incl. 9,6% holiday pay and 25% pro-rata special payments)	€ 5.10	€ 10.20

# EXPLANATION

## WHAT IS THE HOURLY PAY FOR WORK PAID WITH AN SERVICE EMPLOYMENT CHEQUE?

The value of the Service Employment Cheque (for example €10.-) is not automatically the pay received for one hour of work, this is freely negotiated between the employer and employee. However, the lower limit for the hourly rate, (including holiday pay and pro-rata special payments), corresponds at least to the prescribed minimum hourly wages for domestic employees in the respective Federal State. If the particular case concerns the employment of persons with relevant, long-term experience then the minimum hourly pay is higher. **Further information can be found in the Internet under [www.vaeb.at/Service/Dienstleistungsscheck](http://www.vaeb.at/Service/Dienstleistungsscheck) or on the helpline 0810 555 666.**

Selected **minimum hourly pay** for 2015 including pro-rata surcharges (holiday pay = 9.6% and special payments = 25%) by Federal State in €:

B	K	NÖ	OÖ	S	St	T	V	W
Cleaners, household help without cooking duties or simple garden work								
11.33	11.33	10.77	11.33	11.33	11.33	11.33	11.33	10.77
Cleaners after work performed by professionals (e.g. after an apartment is painted)								
15.23	15.23	14.67	15.23	15.23	15.23	15.23	15.23	14.67
Household help with cooking duties								
11.71	11.71	11.12	11.71	11.71	11.71	11.71	11.71	11.12
Childcare								
12.30	12.30	11.69	12.30	12.30	12.30	12.30	12.30	11.69
Sick / elderly care (personal services such as assistance in personal hygiene or dressing)								
15.62	15.62	14.84	15.62	15.62	15.62	15.62	15.62	14.84

**Example:** A Viennese employer agrees an hourly rate € 13.- with his cleaner which should also cover holiday pay and pro-rata special payments. According to the table above, in Vienna the minimum wage per hour for cleaners and domestic help without cooking duties or simple garden work is € 10.77.

The agreed hourly pay of € 13.- is therefore above the minimum hourly wage and complies with the statutory requirements. For a working time of, for example, 5 hours this results in a payment of € 65.-. Employment service vouchers to the value of € 65.- (e.g. 1 DLS worth € 5.- and 6 DLS worth € 10.- or 1 DLS worth € 65.- obtained from newsagent or via DLS online) are owed to the employee.

## **EMPLOYER'S OBLIGATIONS**

The employer must be satisfied that the employee is entitled to work.

With the handing over to the employee of the Service Employment Cheque for the minimum amount of pay owed and, if necessary, the supplementary sheet, the employer has fulfilled all of its relevant obligations.

For the employer all deductions are included in the purchase price of the Service Employment Cheque.

If the minor employment threshold is exceeded by a factor of one and a half through the employment of multiple employees (2015: € 608.977 per month - because holiday pay and pro-rata special payments are not taken into account for this pay limit a cap of **€ 834.211**) applies in 2015 when using Service Employment Cheques in 2015) then the employer must pay the employer tax in accordance with the employer tax act to the amount of 16.4% of the contribution basis (notices of payment imposed by the Regional Health Insurance Fund in the next calendar year).

## **EMPLOYMENT OF A PERSON NOT ENTITLED TO WORK**

The employer would commit an administrative offence. For the first violation a warning is given by the district administrative authority. Each additional violation is punishable by a fine of up to € 200.-.

## OBLIGATIONS AND RIGHTS OF EMPLOYEES

Employees must show the employer their **work permit** and the **e-card** before the work agreement (at least prior to performing the work). The employee is paid the full value of the Service Employment Cheques per bank or postal order.

## HOW MANY PEOPLE CAN AN EMPLOYER EMPLOY UNDER THE SERVICE EMPLOYMENT CHEQUE SCHEME?

In this regard there is **no restriction**. However, the factor of one and a half times the minor employment threshold must be observed (see also „obligations of the employer“ on page 11).

## HOW MANY EMPLOYERS CAN ONE EMPLOYEE WORK FOR?

Also here there is **no restriction**. However, for one and the same employee an employment is only possible up to the minor employment threshold (2015: € 405.98 per month - because holiday pay and pro-rata special payments are not taken into account for this pay limit, the income from Service Employment Cheques in 2015 may reach a value of € **556.14** per month).

If the monthly salary limit is exceeded at one employer then payment by Service Employment Cheques is not permitted. The result is then normal employment subject to compulsory social insurance. For detail information contact your Regional Health Insurance Fund.

## WHAT HAPPENS IF THE MARGINAL EARNINGS THRESHOLD IS EXCEEDED?

If the sum value of Service Employment Cheques submitted by one employee for one calendar month from different employers exceeds the minor employment threshold (2015: € 405.98 per month - because holiday pay and pro-rata special payments are not taken into account for this pay limit, the limit applied to the use of Service Employment Cheques in 2015 is € **556.14** per month). The employee is **compulsory insured**. They then will receive a monthly notice of payment due with a payment slip from the responsible Regional Health Insurance Fund and must pay the corresponding contributions themselves. In such a case the social insurance contributions for the employee is 14.7%.

## BEGINNING AND END OF THE INSURANCE

With the Service Employment Cheque each employee is automatically insured against accidents at work.

Accident insurance in accordance with ASVG covers accidents at work. An accident on the way to work and back is also considered an accident at work. On the day of employment insurance cover begins when starting on the journey to work and ends when the journey from work is completed.

In the case of self-insurance in the health and pension insurance scheme in accordance with Section 19a of ASVG, the insurance commences on the first day of employment of a calendar month and expires at the end of the same calendar month. If the appropriate contributions are paid the insurance cover continues in the following month. If you have any questions, please contact the **Service Hotline 0810 555 666**.

## WORKING UNDER THE SERVICE EMPLOYMENT CHEQUE SCHEME A AT THE SAME TIME AS OTHER EMPLOYMENT

If marginal employment under the DLSG scheme is performed at the same time as regular employment or ongoing full-cover insurance and the resulting pay from the sum of all employment exceeds the minor employment threshold (2015: € 405.98 per month – whereby holiday pay and pro-rata special payments are not taken into account for this pay limit), then a full-coverage health, accident and pension insurance also automatically applies for the employment under the marginal Service Employment Cheque scheme.

In the following year a one-time notice of payment due for social security contributions is issued by the responsible Regional Health Insurance Fund.

## VOLUNTARY HEALTH AND PENSION INSURANCE

With marginal Service Employment Cheque the employee can take out **voluntary** health and pension insurance cover in accordance with the applicable rules to § 19a ASVG. At the request of the employee (tick the last paragraph on the supplementary sheet enclosed with the Service Employment Cheque) they will be sent the relevant form by post. On application to the responsible Regional Health Insurance Fund the employee will receive full details and a payment slip for paying the contribution (2015: € 57.30 per month). With self-insurance in the health and pension insurance scheme in accordance with § 19a

# EXPLANATION

ASVG the insurance cover remains in place in the following month and the contribution becomes due, unless the insurance is cancelled. For further details, please contact your Regional Health Insurance Fund.

## IS UNEMPLOYMENT INSURANCE COMPULSORY?

No, as the individual employer may not exceed the insurance limit.

## IS A PERSON PAID WITH SERVICE EMPLOYMENT CHEQUES SUBJECT TO THE PENSION INSURANCE FOR SELF-EMPLOYED ACT (BMSVG = BETRIEBLICHEN MITARBEITER- UND SELBSTÄNDIGEN -VORSORGE-GESETZ)?

No. As the longest duration of an employment relationship is one month the BMSVG is not applicable.

## WHAT MUST BE TAKEN INTO CONSIDERATION REGARDING TAX?

Income from the Service Employment Cheque scheme represents income from non-self-employed work.

- If you only have this income, then no **income tax / earnings tax** applies **up to** incomes of € 12.000,- per year.
- If your earnings exceed € 12.000,- per year, or if you should earn other incomes from „standard“ employment at the same time as from the Service Employment Cheque scheme, or receive income from other sources (such as.: rent and lease, business, etc.) above € 730.- per year besides the income from Service Employment Cheques, then you are obliged to submit a tax declaration to the tax office.

## TAX DEDUCTIBILITY FOR CHILD CARE!

Since January 2009 costs for child care in connection with employment or payment under the Service Employment Cheque scheme are tax deductible if the minimum qualification is given in the following form:

- The carer must have fully completed their 16th year of age.
- The carer must have completed training to the extent of 16 hours between the end of their 16th year of age until the end of their 21st year of age
